WHAT IS JUUL?

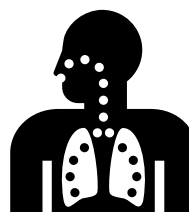

JUUL is a brand of e-cigarette that is shaped like a USB flash drive. There are more than 460 e-cigarette brands. JUUL is a very popular brand amongst middle and high school students.

A single Juul pod contains as much nicotine as a pack of 20 regular cigarettes.

Nicotine can harm the developing adolescent brain, and brain development continues until about age 25.

Between August 2019 and February 2020, there were more than 2,800 hospitalization and deaths nationwide because of lung injury related to vaping.

Talk to youth about the dangers of e-cigarettes.
